

How to access Alternative Formats

As part of your course, you automatically have access to Ally's Alternative Formats! Look for the Alternative Formats icon to the right of your course content. Once you select the icon, a menu of available alternative formats based on the original content will appear. Select your desired alternative format and then download.

Benefits of Using Alternative Formats

Choose the Format That Works Best For You

Ally provides all students access to more accessible alternatives such as HTML, ePub, Tagged PDF, OCHred PDF, Audio, Electronic Braille and more. This allows you to choose the format that works best for your personal preference.

Flexibility and Convenience

Choose mobile friendly options like HTML and ePub that also help with offline reading or choose Audio for on the go course readings via MP3 download.

No Extra Setup Required

No extra approvals or requests are needed to access the alternative formats and there is no limit to the number of times you download.
