Each window is two minutes. Reserve the receiving path for three minutes before the hit as well as the hit itself. Engineering owns receiver availability. Breaks live in Dana’s desk thread.

Campaign status, count updates, voter response and verification are planned editorial purposes. No result or speech time has been assumed.

Date: Mon, 2 Nov 2026 16:20 EST
Subject: Tomorrow - first field positions

Team, this is our working deployment. Everyone clocks in at 2 p.m.; field departures are 2:30 p.m. Tuesday. Hold positions until 1 a.m. Wednesday unless the desk releases you. Allow 20 minutes back at base for handoff before signing out. All sites need access confirmation and a comms test.

Maya Bennett: Senate / Ossoff. Pair with Ellis Morgan. Start at Woodruff Park. Paired. Backup: Lena Park mobile subject to travel.

Lena Park: Mobile response. Start at Centennial Olympic Park. MMJ. Backup: Desk read / phone.
Theo Williams: Results verification. Start at Peachtree Metro News studio. Studio. Backup: Harper Bell Results producer.

Lena is our self-shoot MMJ, without a dedicated photographer. Theo stays at the fictional newsroom verification desk. No real street address exists for our studio. Campaign park/square positions are demo stand-ins, not campaign HQs. The equipment checkout is a separate engineering export. Use the field scout notes for drive and setup allowances. The 1 a.m. hold is a draft: flag any return that runs past paid hours before approving it.

PMN / SYNTHETIC EDITORIAL POLICY
November 3 election coverage

No invented returns. Theo Williams and Harper Bell verify results with official election sources. Label partial results with source and timestamp. A campaign claim is not a newsroom race call. Escalate winner declarations to Rosa King. Check the full ballot; the four campaign files are only a coverage subset.

Georgia voting hours in the source snapshot: 7 a.m. to 7 p.m.; voters in line at 7 p.m. may vote. General election November 3; general runoff December 1 if applicable. Confirm exceptions and updates before air.

17:03 Chris: Two receive paths only, RX01 and RX02. Every field live needs a 3-minute line-up before its 2-minute hit. A spare transmitter does not create a third receiver or another crew. Bench tests are due Nov 2; field comms are still untested.
17:06 Dana: All nine field access checks remain open. Do not mark a crew ready just because the camera passes its bench test.
