

PROGRAM ASSISTANCE CENTER

What does PAC assist with?

Our Program Assistance Center provides households with direct financial assistance to pay heat and electric bills, taking immediate pressure off so families can get back on the path to financial security.

Our experienced PAC team also offers a needs assessment to each client, connecting them with other non-energy services that may help them. PAC serves all of Michigan and is part of the Michigan Energy Assistance Program with additional support from Consumers Energy and DTE. Questions? Call (517)741-0202.
